Profile Summary

- Built 10+ web projects with a focus on responsive design and optimized performance.
- Completed multiple UX projects, including a 70-day UI replication challenge and 10-day UX design projects covering wireframing, prototyping, and user journeys.
- Designed the official logo for the Information Systems department at ITATS and conducted a UX case study on ArchDaily Platform.

Experience

Sisgo Global Teknologi, PT - Software Engineer   **May 2025 - Present**

- Developed and optimized full-stack ERP applications using Next.js and Laravel, implementing key modules such as purchasing, inventory management, finance, accounting, and organizational structure to streamline business workflows.

- Integrated Meta Developer APIs for automated Facebook and Instagram post scheduling, and Google Developer API for YouTube content publishing, enabling cross-platform automation and centralized content management.

Projects

Personal Website | Rive, Tailwind CSS, ReactJS, GitHub | GitHub Repo   **Feb 2025**

- Developed using React and Tailwind CSS, incorporating interactive elements, optimized performance, and a fully responsive user interface. Designed to provide a seamless and engaging experience while effectively showcasing projects across various devices.

70RAD Design Challenge | Figma, Adobe Illustrator | Link to Document   **Mar 2024**

- Successfully completed a 70-day design challenge featuring daily UI tasks to enhance design proficiency and 7 UX projects emphasizing user research, moodboarding, wireframing, and prototyping. This experience refined my visual design precision and strengthened my UX problem-solving abilities.

Official Logo of Information Systems ITATS | Adobe Illustrator | Link to Projects   **Aug 2023**

- Designed the official logo for Information Systems ITATS, winning the competition despite having no prior experience. Quickly adapted by learning branding and design principles, developing a concept that now represents the department.

Education

Institute Technology of Adhi Tama Surabaya   **Sep 2020 - Feb 2025**

Bachelor of Computer Science, GPA: 3,79 / 4,00   *Surabaya, East Java*

Community Involvement

SurabayaDev, Social Media & Design Team   **Sep 2024 - Present**

- Played a creative role in shaping the community's visual direction — from event campaigns to digital storytelling — helping bring tech initiatives to life, strengthen brand identity, and inspire collaboration within the local tech ecosystem.
